Live Your Best Life

Life throws all sorts of hurdles at us—muscle aches, stiff joints, and the general chaos of everyday life. While medication and physical therapy have their place, sometimes it's the simple, natural fixes that give us the most relief.

For centuries, people have turned to the soothing comfort of warm water to calm their aches and stress. From the lavish baths of ancient Rome to the cozy hot tubs we love today, a warm soak has the power to relax both body and mind.

Find out more about how a hot tub can help you feel better, ease your aches, or just relax after a busy day, and why you should choose a Grand River spa for your hot water journey to living your best life.

Perks of a Warm Soak

Wave goodbye to the daily grind with the healing power of hot water. Whether you're dealing with sore muscles, stiff joints, or just need to chill after a long day, a hot soak is a game-changer for your body and mind. Discover the amazing benefits of hydrotherapy — it's not just for relaxation; it's for real health benefits!

Hydrotherapy: The Real Deal

Hydrotherapy has been around since ancient civilizations. Today's hot tubs come with spa jets that do wonders like improving circulation, helping your muscles recover, and lowering anxiety.

Sleep like a baby

Tossing and turning at night? A hot tub might be the fix you need. The warm water and jets help melt away stress and loosen up muscles, so you can sleep like a rock.

Arthritis relief, naturally

The heat and gentle massage of water therapy help ease joint stiffness and pain. Plus, regular use can reduce inflammation and increase muscle flexibility, so you can stay active and feel good.

Stress? Meet your match

Hot water improves circulation, calms your nerves, and reduces pain. Soak in hot water, and your body releases endorphins, helping you unwind from the day and relax.

Family time, but better

Quality family time is priceless. Jump in the hot tub for some bonding time away from screens and distractions. It's a terrific way to make memories while boosting your well-being.

Hot tub jets help muscles recover more quickly.

Why Grand River

Grand River Spas is all about high-quality materials and attention to detail. Every hot tub is crafted with care to give you the best experience for years to come.

Energy-Efficient? You bet!

Grand River Spas meet or exceed the energy standards set by the California Energy Commission (CEC) for all portable spas with its Polar insulation, keeping your spa warm and efficient.

Performance? We've got that too.

The Grand River Spas Hydraulic System (GRHS) is designed for optimal jet performance and water filtration—giving you the best hydrotherapy possible.

Custom fit cover

Each Grand River hot tub comes with a custom cover, made with high R-value foam and weather-resistant fabric, so your water stays hot and clean.

Built tough

All our hot tubs feature a durable HDPE plastic base to keep your spa in top shape for the long haul.

Built Different, Built Better

Grand River hot tubs are built with comfort and relaxation in mind. With premium features like adjustable jets, soothing LED lights, and luxurious massage settings, your hot tub experience will be one of a kind.

Revitalize with every soak

Hydrotherapy is at the heart of every Grand River hot tub experience. Powerful jets combine water and air for a soothing massage that targets your specific needs. Adjust the jets and air valves to get the perfect massage, whether it's for your back, feet, or neck.

Cascade water feature

Find serenity as you relax in the seat below and experience the caress of cascading water on your back. Featured on Saginaw and Thornapple models.

Aqua Arc water feature

Enjoy the soothing sounds as this waterfall arches gracefully into your hot tub. Featured on Muskegon and Sturgeon models.

Premium LED lights

Create the perfect outdoor vibe with soft interior and exterior lighting and a choice of seven colors—go bold with red, green, or purple, or keep it mellow with something more subtle.

GRHS water care

Your water will always be crystal clear, thanks to our expert filtration system and ozone mixing chamber. That means you can relax without worrying about water maintenance.

DuraShield spa shell

Feel the difference with our slip-resistant, soft-to-the-touch spa shell. It's built to last with a limited lifetime warranty, so you can soak with peace of mind.

Premier Series

Premier series hot tubs are designed to deliver an ideal mix of luxury and cost-effectiveness.

Featuring well-designed, comfortable seating and powerful jets that offer targeted massage, these tubs allow you to adjust the strength to your liking. Whether you're looking to relax after a hectic day, recover from intense exercise, or ease chronic discomfort, these hot tubs provide a flexible and effective solution. Offered in a variety of sizes and styles, they are perfect for enhancing any outdoor space, turning your backyard into a peaceful and luxurious retreat.

Saginaw

6 ADULTS | LOUNGE

86" x 86" x 37" | 218 cm x 218 cm x 94 cm

Stretch out in the Saginaw's full-length lounger or settle into the corner swing seat, designed for flexible comfort. Precision-placed jets target key areas for a customizable hydrotherapy experience.

Michigan's **Saginaw** river is home to the longest wooden-decked bridge in the United States!
